

Grocery rebate incentives and conditions

Equipment Upgrade		Incentive	
Door auto-closer ¹	walk-in freezer	\$50	per door
	walk-in cooler	\$50	per door
	reach-in freezer	\$50	per door
	reach-in cooler	\$50	per door
Door gaskets ²	walk-in cooler	\$6	per lineal ft
	walk-in freezer	\$7	per lineal ft
	reach-in cooler	\$6	per lineal ft
	reach-in freezer	\$7	per lineal ft
Strip curtain	walk-in cooler	\$75	per door
	walk-in freezer	\$150	per door
Suction line insulation		\$1.50	per lineal ft
Zero energy glass door ³		\$125	per door
Low energy glass door ⁴		\$75	per door
Anti-sweat heater (ASH) controls ⁵		\$100	per door
EC evaporator fan motor ⁶	reach-in cooler/freezer	\$50	per motor
	walk-in cooler/freezer	\$100	per motor
PMSM evaporator fan motor (e.g. Q-Sync) ⁷	reach-in cooler/freezer	\$100	per motor
	walk-in cooler/freezer	\$250	per motor
EC compressor head cooling fan motor ⁸		\$50	per motor
Night covers (vertical or horizontal)		\$20	per ln ft case
Smart defrost control for walk-in freezer ⁹		\$400	per controller
Evaporator fan controls for walk-in cooler/freezer ¹⁰		\$50	per fan motor
Outside air economizers for walk-in cooler/freezer ¹¹		\$1,250	per unit

Additional requirements

1. New installation or replacement of non-functioning auto closer; no rebate for the adjustment of an existing auto-closer. Must be able to firmly close the door when open one inch. Door must have a minimum perimeter of 15 feet.
2. New gasket to replace existing, worn or damaged gasket. Replacement gaskets must meet the manufacturer's specifications regarding dimensions, materials, attachment method, style, compression and magnetism.
3. Triple-pane glass with either heat-reflective treated glass or gas fill and are equipped with no anti-sweat heaters. Anti-Sweat Heater Control rebate is not available with this rebate.
4. New glass doors replacing existing glass door with an amp draw of less than 0.39 amps per door. Anti-Sweat Heater Control rebate is not available with this rebate.
5. Controller that reduces the energy use of anti-sweat heater by 50% by sensing humidity, dew point or condensation. Zero energy and low energy glass door rebates are not available with this rebate.
6. Electrically commutated (EC) evaporator fan motor replacing an existing shaded pole motor, less than 1 hp. Rebate is available for existing walk-ins, existing reach-ins, and new reach-ins; no rebate is available for new walk-ins.
7. Permanent magnet synchronous motor (PMSM) evaporator fan motor replacing a shaded pole motor, less than 1 hp. Q-Sync is the most common brand.
8. New compressor head fan motor less than 20W, replacing a shaded pole motor (>35W) on a low temp reciprocating compressor system. Compressor must be an integral part of a refrigeration system with a remote air cooled condenser.
9. Automated controls on a system with a condensing unit of 1.5 horsepower or greater. Controls should use temperature and pressure sensors to determine when to initiate an evaporator defrost cycle. Timers are not eligible.
10. Automated controls on an evaporator fan of 1/20 horsepower or greater. Must reduce evaporator fan runtime by at least 70% when the compressor is not running. Must automatically reduce fan speed when refrigerant is not flowing.
11. For walk-in coolers or freezers greater or equal than 1000 cubic feet. Outdoor air and exhaust dampers must close automatically for summer isolation. Must be capable of using outdoor air or less than 34 degrees Fahrenheit while maintaining cooler set point.
