## Additional requirements

---

\* Annual electric cost savings estimates are based on a simple calculation and may not accurately predict the results for your facility.

1. Replace existing server (offsite virtualization hosting is not eligible). Provide virtualization software agreement and documentation of server decommissioning.
2. Verify surge protector is appropriate for equipment and appliances that will be plugged in and will protect at lower power surges.
3. Additional rebates may be available for Fort Collins Utilities, City of Longmont and Loveland Water and Power water customers. See water rebates for more information.
4. ENERGY STAR certified with MDEC < 0.42 kWh/day/ft<sup>3</sup>

### Incentive details and requirements:

- Electric efficiency incentives are available to commercial electric customers of Estes Park Power and Communications, Fort Collins Utilities, Longmont Power & Communications or Loveland Water and Power
- Water efficiency incentives are available to commercial water customers of Fort Collins Utilities, City of Longmont or Loveland Water and Power
- Total incentive amounts over \$10,000 require pre-approval before efficiency upgrades begin
- Total incentives are limited to 100% of a project total upgrade cost
- Efficiency Works Business maximum incentive limits will apply per project, see Program Guide for details
- Funds for incentives are subject to availability. Program requirements including incentive levels and limits are subject to change without advanced notice and may vary by utility.

### Limited time 50% bonus incentive details and requirements:

Starting April 15, 2023 Efficiency Works Business is offering a 50% bonus on rebates for efficiency upgrades in the following categories: lighting, food service, grocery, office and appliance, building envelope, cooling, VFDs and water. To qualify for the bonus efficiency incentives, upgrades must be completed and submitted for payment by November 15, 2023.

- Qualifying rebate categories: lighting, food service, grocery, office and appliance, building envelope, cooling, VFDs and water

- Bonus does NOT apply to custom upgrades, new construction or major renovation lighting or envelope projects, or building tune-up incentives
- Efficiency projects started after April 15, 2023 are eligible based on a rebate pre-approval date or the date listed on the contract (invoice) if the project did not require preapproval
- Upgrades must be completed and submitted for payment on or before November 15, 2023
- All standard incentive requirements and maximums apply to projects eligible for the bonus incentive
